Professional Summary

Full Stack Developer with production experience of building web and mobile applications using Angular, React.js, and Node.js. Delivered a real-time GPS school bus tracking system (Angular + Ionic) and a Shopify product-kit e-commerce platform with live inventory sync. Skilled in REST API design, JWT authentication, RBAC, and Shopify API integration.

Technical Skills

Frontend	Angular, React.js, TypeScript, JavaScript, HTML5, CSS3, SCSS, Tailwind CSS, Bootstrap, RxJS, Ionic
Backend	Node.js, Express.js, REST APIs, JWT Authentication, Microservices, WebSockets, MVC Architecture, RBAC, GraphQL
Database	MongoDB, MySQL, MariaDB
Cloud & DevOps	AWS (EC2, S3), Azure (AZ-900), Git, GitHub, Docker, Linux, GitHub Actions, CI/CD Pipeline
Tools	Postman, Jira, VS Code, Shopify Admin API, Capacitor

Work Experience

Junior Full Stack Developer

Jan 2025 – Present

Application Nexus Pvt. Ltd., Pune

- Built and maintained **3 production applications** (school bus tracking, salon management, Shopify e-commerce) using Angular, React.js, Ionic, and Node.js across the full development lifecycle.
- Designed and secured **50+ REST API endpoints** with JWT authentication, input validation middleware, and RBAC (4 user roles), reducing unauthorized access incidents to zero in production.
- Integrated Shopify Admin & Storefront APIs to sync inventory across **500+ product variants** in real time, eliminating manual stock reconciliation effort.
- Collaborated in Agile sprints using Git, GitHub, Jira, and Postman; delivered features on schedule across 3 concurrent projects.

Software Developer Intern

Mar 2024 – Apr 2024

Cybzilla Systems Pvt. Ltd., Pune (Remote)

- Implemented reusable Angular components and REST API integrations, reducing duplicate UI code by 30% across 2 modules.

Projects

School Bus Tracking System

Angular, Ionic, Node.js, MongoDB, WebSockets

- Developed a cross-platform real-time GPS tracking system (web + Android/iOS) for **3 schools and 100+ parents**, with live location updates, route management, and automated delay alerts.
- Implemented RBAC for 4 roles (Admin, Driver, Parent, School Staff), JWT-secured APIs, offline support, and push notifications via Capacitor.
- Optimized Angular architecture with lazy loading and reusable modules, improving initial load performance.

Jozi — Mix and Match Shopify Application

React.js, Node.js, Shopify APIs

- Built a Shopify product-kit platform enabling users to bundle items with dynamic pricing, with real-time inventory validation across **200+ product variants**.
- Engineered Node.js backend services for product mapping, kit validation, and webhook-based stock sync, eliminating manual inventory reconciliation.
- Delivered responsive UI in React.js using Shopify Polaris components, optimized for web and mobile shoppers.

Salon Management Application

Angular, Ionic, Node.js, MySQL

- Built a mobile-first salon platform with appointment booking, staff scheduling, service pricing, and Razorpay payment gateway integration supporting one-time and subscription plans.

Education

MSc Computer Science — Pune University

CGPA: 8.66 / 10 2023–2025

BSc Computer Science — Pune University

CGPA: 8.53 / 10 2020–2023

Certifications

Microsoft Azure Fundamentals (AZ-900) — Microsoft (via Magic Bus – Accenture Cloud Computing Program)

Core Java — Ovi IT Solutions (ITT Council)
